

American Council for

**United Nations University**

The Millennium Project

**2006 Millennium Project  
Planning Committee Meeting**  
July 26 – 28, 2006 – Toronto, CANADA

**EyE Network in Latin America – Node in Argentina, MP  
AC/UNU**

**Network Activities Report (Brief)**

**January 2005 - June 2006 (Partial synthesis, main activities)**

Prepared by: Eduardo Raúl Balbi,  
President, EyE Network in Latin America  
Chair, Node in Argentina, MP AC/UNU

# **1. Institutional, EyE Network**

## **a. Management Committee (Headquarter. Buenos Aires)**

Four members

## **b. Planning Committee**

Management Committee members and all Directors and Co-directors of EyE Networks Nodes

## **c. Current EyE Nodes**

**16:** Mexico (5), Guatemala, Cuba, Colombia (2), Ecuador, Chile and Argentina (5). All Nodes are based in Universities, Research Centers or Civil Organizations

## **d. Potential new Nodes**

**3:** Ecuador (Guayaquil), Peru and Spain

## **2. EyE Method of Prospective**

**After more than 10 years of research, testes and practice, in 2003 EyE officially offers their own Method of Prospective (MEYEP).**

**This method is accepted today by universities, international organizations, corporations and research centers. Demand is growing up permanently and it is used daily in concrete prospective studies, workshops and meetings.**

**Final handbook on this method is been written (it would be ready at the end of 2006, in Spanish)**

**Simultaneously, we use and apply other well-known methods, and we also combine diverse techniques and methodological tools with our MEYEP.**

### **3. Academic and training activities, EyE Headquarter**

**a. Our MEYEP Method is teaching in:** 3 MBA, 8 Masters and 2 Specializations, in Colombia, Ecuador, Chile and Argentina

**b. Coaching of Analysts' in Prospective (with special application of MEYEP Method) in:** 13 Workshops in Colombia, Venezuela, Ecuador y Argentina (7 for Government Agencies)

**c. Management and advice for establishment of prospective observatories in:** Argentina (3), Colombia (2), Ecuador (1) and Mexico (1)

**d. Main studies of applied prospective:** 17, for different institutions and corporations

**e. Lectures and academic meeting with prospective analysis on specific topics (most important) 2004: 6; 2005: 10; 2006: 9**

## **4. Activities of the EyE Network Nodes**

All Nodes are working in different topics. As example, we present only the list of activities carried out by Chaco and Future Mexico EyE Nodes

### **a. Chaco Node main activities**

#### **2005: Ten main activities**

- Main Committee of World Mediation Forum, it has designated to Chaco Node (based in Research for Peace Center) member of this Forum
- Weekly program in a local radio station, “prospective and peace”. It has more than 100 editions. Edition 100: 04/04/2006
- Five training events for different institutions and corporations
- Portuguese Translation, "Value of Silence - a means for Peace" book. Author: Dr Miguel Garrido, Chair of Chaco Node
- Collection of publications and work papers on Peace, Future, Human Being, Mediation and Negotiation.
- Advice in Policies of Growth for a Project of Social Peace, El Colorado, County of Formosa, Argentina

## **a. Chaco Node main activities (cont)**

### **2006: seven main activities**

- 4 training courses and workshop
- Chaco Node and Research on Peace Center develops "Peace Phenomenon" Course, as continuous education.
- Advice to the political area for popularization of the "Value Active Solidarity", General San Martin's city, County of Chaco, Argentina
- Chaco Node and Research for Peace Center it inaugurates the Center of Studies of Conflicts for Peace, in Universidad Nacional Villa María, County of Córdoba, Argentina,

## **b. Future Mexico Node main activities**

- Interdisciplinary group integrated for near 200 professors, investigators and students of diverse institutions of the FD and of other states of the Mexican republic, interested in the use of prospective
- Every week, from January 2003, it carries out the Permanent Seminar of Prospective Studies in the Political and Social Sciences College of UNAM.
- We are publishing the international electronic magazine *“Prospecti ...va building futures”* that it takes ten numbers edited up today. General Director is Dra. Guillermina Baena Paz.  
[www.metadata.org.mx/subnodofuturromexico](http://www.metadata.org.mx/subnodofuturromexico)
- We've published two electronic books of free download in Internet, one titled "Prospective Politics" (2004), Dra. Guillermina Baena; and others, an international collective book directed by Dra Guillermina Baena titled "Human Security and Emotional Infrastructure" (2005).

## **b. Future Mexico Node main activities (cont.)**

- In 2005 we've assumed the coordination of efforts in Human Security for EyE Network. Our biggest achievements:
  - Incorporation in "Letter of Emergent Human Rights" to human security as principle and as emergent right, with the vision achieved in the investigation that EyE carried out in 2003.
  - Project for the creation of Latin American Council of Prospective for Peace and Human Security. In process.
  - In preparation, collective and international book titled "Emotional Capital", Volume 2 of the Human Security Collection
  - Elaboration of four didactic handbooks of Working Papers series in prospective matters

## **b. Future Mexico Node main activities (cont.)**

- Ten courses and graduates courses in prospective matters to national level
- In 2005 it was achieved that the Plan of Studies on Political Science has incorporated the following subjects: Prospective Politics, Scenarios Construction I, Scenarios Construction II, and Techniques on Social Prospective. In the Postgraduate Program of the same School we have incorporated the subject: Laboratory of studies of the Future.
- We've carry out the First Meeting **Prospec 2005** with experts and civil organizations in November 2005. Memory of this meeting is in Number 9 of own digital magazine Prospeci...va
- UNAM authorized one research project titled Laboratory of Studies of the Future, for two years, belonging to the PAPIME project of the institution. Recently, we have concluded a similar project denominated "Political Prospective."
