Economics major with demonstrated success in advanced studies looking for a career combining information technology with international economics, trade, and finance.

EDUCATION

University of Maryland College Park; B.S. Economics, May 2010

Educated in all fields and applications of Economics with a focus on Game Theory, Finance, and Economics of Developing Countries.

- **Relevant senior level coursework:**

Theory of Economic Development (A)	Computer Methods in Economics (A)
Game Theory (A)	Financial Markets and the Macroeconomy (A)
Industrial Organization (A)	
- **Currently enrolled in:** Econometrics I, Global Economic Policies, Economics of Regulation and Anti-Trust

EXPERIENCE

Technology Manager, Office of Academic Classroom Support, the University of Maryland 2008-present

Managed classroom and facility related technology in multiple academic buildings. Balancing school and work I:

- Communicated with professors and faculty using email, phone, and face-to-face contact to resolve various troubleshooting requests
- Helped coordinate and deliver tech services to classrooms in 3 buildings on campus
- Trained professors and students in the usage of computer and audio-visual technology
- Responsible for troubleshooting various computer systems and software

Research Assistant, MIND Lab, University of Maryland

Fall 2007

In this research lab within the College of Computer, Mathematical and Physical Sciences I:

- Worked with graduate students contracted to do data mining work for private and government agencies
- Utilized research experience to search for new technologies and ideas for client agencies
- Assisted graduate students in developing innovative software solutions
- Compared and tested data aggregating and database software

Intern, Modisco.com

Spring 2007

Helped develop an internet start-up, Modisco.com, a small company based in Silver Springs offering ad-services and discounts through mobile phones. As a partner in this business venture, I:

- Designed and coded web site and client-side interface
- Wrote and designed business plan
- Wrote and designed all marketing materials
- Signed over 20 local businesses as clients
- Worked cooperatively in a team with two other post-graduate entrepreneurs

COMMUNITY INVOLVEMENT AND AFFILIATIONS

- Tutored students in Calculus, Game Theory and Object-Oriented Programming
- Participated in Lambda Chi Alpha's Hoops for Kids program, raising money for Ronald McDonald House
- Member of Lambda Chi Alpha Fraternity, Epsilon Pi Chapter

COMPUTER SKILLS

- Programming Languages: XHTML, Java, C, C++, C#, PHP, SQL, JavaScript, CSS
- Software: Dreamweaver, Eclipse, PHP Designer, Instructor-led training in all Microsoft Office programs, Adobe Photoshop, Adobe Illustrator, Adobe Flash, MySQL
- Research: JSTOR, EBSCOhost, LexisNexis, FRED St. Louis database, World Bank database, IMF database
