- 8 experts from China participated in it
- Translate into Chinese version
- Zhouying Jin, Member of The MP AGI Team

B. Study the history of future research

- 1. What is future research, why is future research, and how to study the future**
- 2. Enrich and reorganize the Five waves of future research**
- 3. Re-examine and study the classics of future research pioneers and thinkers**
- 4. Scanning of Global Future Research Institute**

C. Conduct future research lectures targeting master's & doctoral students at several universities

- What is future research
- To achieve comprehensive rejuvenation in China, it is necessary to strengthen future research
- Future Research supported by Government in China
- Future research by non-governmental organizations
- Further in-depth future research topics are needed

- China University of Science and Technology 2023.6.13—6.15

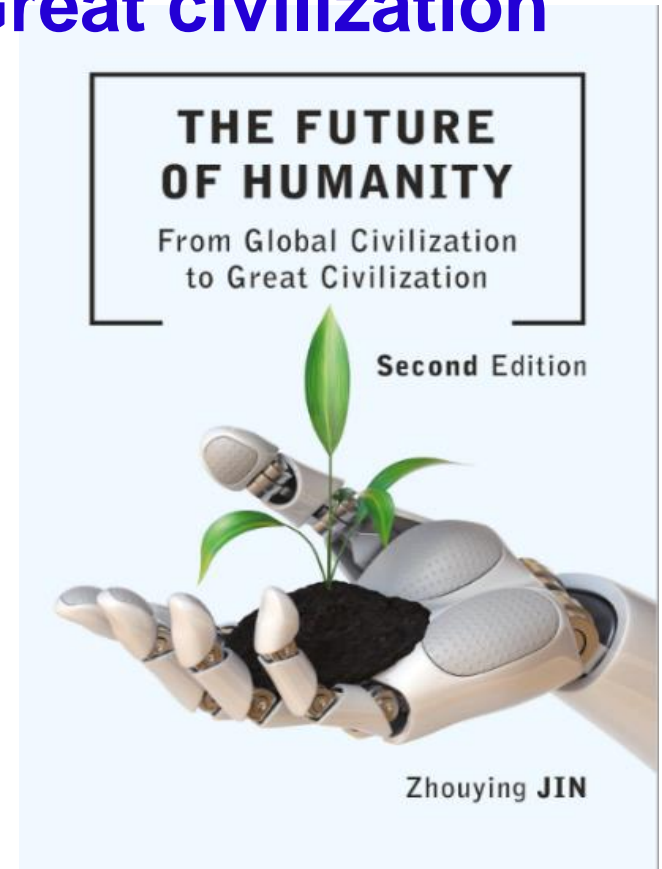

D. Reorganize and study the classic works of future research pioneers and thinkers

- The Western scholars often mentioned Neumann, Churchman, Shannon, Nash, Weiner, Helmer, Meadows,.....
- My suggestion: adding Plato, three utopian socialists, Karl Marx, The Book of Changes and Laozi in Ancient China, Sheng DAI in the Western Han Dynasty, Youwei KANG in the late Qing Dynasty, and Theodore Gordon, Jerome Glenn, their contributions should be recorded in the future history of the world.

In chronological order: **I Ching, Lao Tzu, Plato, Sheng DAI, Thomas. Moore, Francis Bacon, Thomas Campanella, Saint-Simon, Fourier and Owen, Karl Marx, Youwei KANG, Neumann, Churchman, Shannon, Kahn, Nash, Jules Verne, John McCarthy, Weiner, Helmer, Theodore Gordon, Meadows, Jorgen Landers, Jerome Glenn**

E. My Future Research: The future of humanity -- from Global Civilization to Great civilization

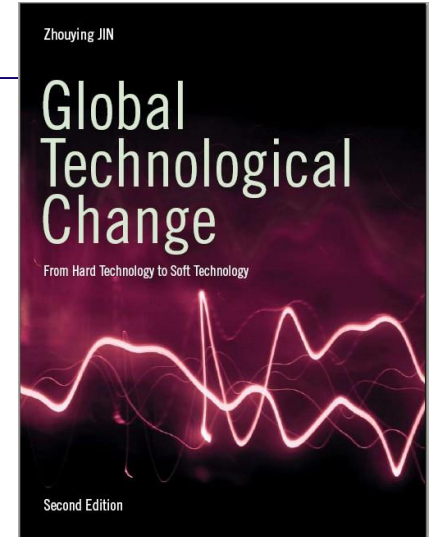

1. The Future Civilization of Humanity--Global Civilization and Great Civilization were proposed for the first time
 - Gave a high appraisal from international future academic community, e.g. Theodore Gordon, Hazel Henderson,
 - Published in China(three versions), UK, U.S, Hungary, South Korea, and maybe in Turkey
2. The transformation of human civilization is imminent

F. To participate in the "Science & Technology Innovation and Future Industry Think Tank"

- **According to China's "14th and 15th Five Year Plan" and the "2035" long-term goal outline, a number of future industrial layouts are currently being planned in the fields of cutting-edge technology and industrial**
- **At the national level, determine 10+1 pilot projects for future industrial technology parks**
- **Each park = universities + local governments + leading enterprises**
- **Now, 9 relevant provinces and cities are actively planning**
- **China University of Science and Technology with Anhui province collaborate will establish "Science and Technology Innovation and Future Industry Think Tank" .**

G. Further in-depth research topics are needed

2nd edition (2011)

- **In-depth study on future research history**
- **Soft technology research and practice**
(as an another paradigm of technology, creating a new discipline)
- **Three Principles of Combining Theory and Practice for Future Research in China**
- **Infrastructure for future research in the public domain**
- **Content design for Future Museum in China**
- **Science Fiction Research on Human Future Civilization**
