

The Millennium Project

The Millennium Project Philippine Node Report 2023

Shermon Cruz
Chair, TMP Node

Chief Futurist, Center for Engaged of
Foresight

A wide-angle photograph of a large, modern conference room. In the foreground, several long tables are arranged in a U-shape, with people seated around them. The room has a high ceiling with exposed ductwork and recessed lighting. At the far end of the room, a stage area features a large screen on the left displaying the text "Millennium Project Node Chairs and Co-Chair Next Steps". A group of people is seated on the stage, and another person is standing and speaking. The overall atmosphere is professional and collaborative.

Dreams & Disruptions

a foresight game

Step into a world where chaos meets creativity, and uncertainty becomes your playground. Dreams and Disruptions is a wild ride and a transformative journey through the future.

Build scenarios with a twist of randomness, embrace diverse voices, and tackle disruptions head-on. With a dash of leadership, a pinch of anti-fragility, and a whole lot of imagination, this game will challenge your assumptions, immerse you in contradictions, and inspire you to dream big and shape anti-fragile tomorrows.

Buckle up, because the future is yours to create!

[Get yours now!](#)
